

ALISSA CARPENTER

MULTI-GENERATIONAL WORKPLACE EXPERT
NOTOKTHATSOKCOACH.COM

I am facilitator, trainer, and dynamic keynote speaker with a focus on bridging communication gaps in diverse workforces. Through “out of the box” creativity, interactive sessions and engaging content, I meet organizations and their employees where they are to create collaborative workplaces across generations.

I have an MEd in Social and Comparative Analysis in Education, am a Gallup-Certified Strengths Coach and certified in the Strong Interest Inventory and Myers Briggs Type Indicator. I was also a Forbes Contributor where I focused on how millennials can launch to the next phase of their career using their strengths. I will be giving a TEDx talk in April 2019 and am currently writing, *Humanize Your Workplace* (Career Press) set to release in 2020, addressing the importance of inclusion and communication in the workplace.
